

Pellock recognized for 30 years' service

Child Development Resources recognized Dr. John Pellock, chair of Child Neurology at the VCU School of Medicine, for 30 years of serving as CDR's medical director and providing pediatric neurological consultation. From right: Paul Scott, executive director; Pellock; Cathie Allport, former Infant & Parent Program director; Barbara Kniest, former CDR executive director; and Lisa Thomas, deputy director. Each year, CDR serves nearly 1,000 children in the state's Historic Triangle who have disabilities, developmental delays, or who are at risk for delay.
